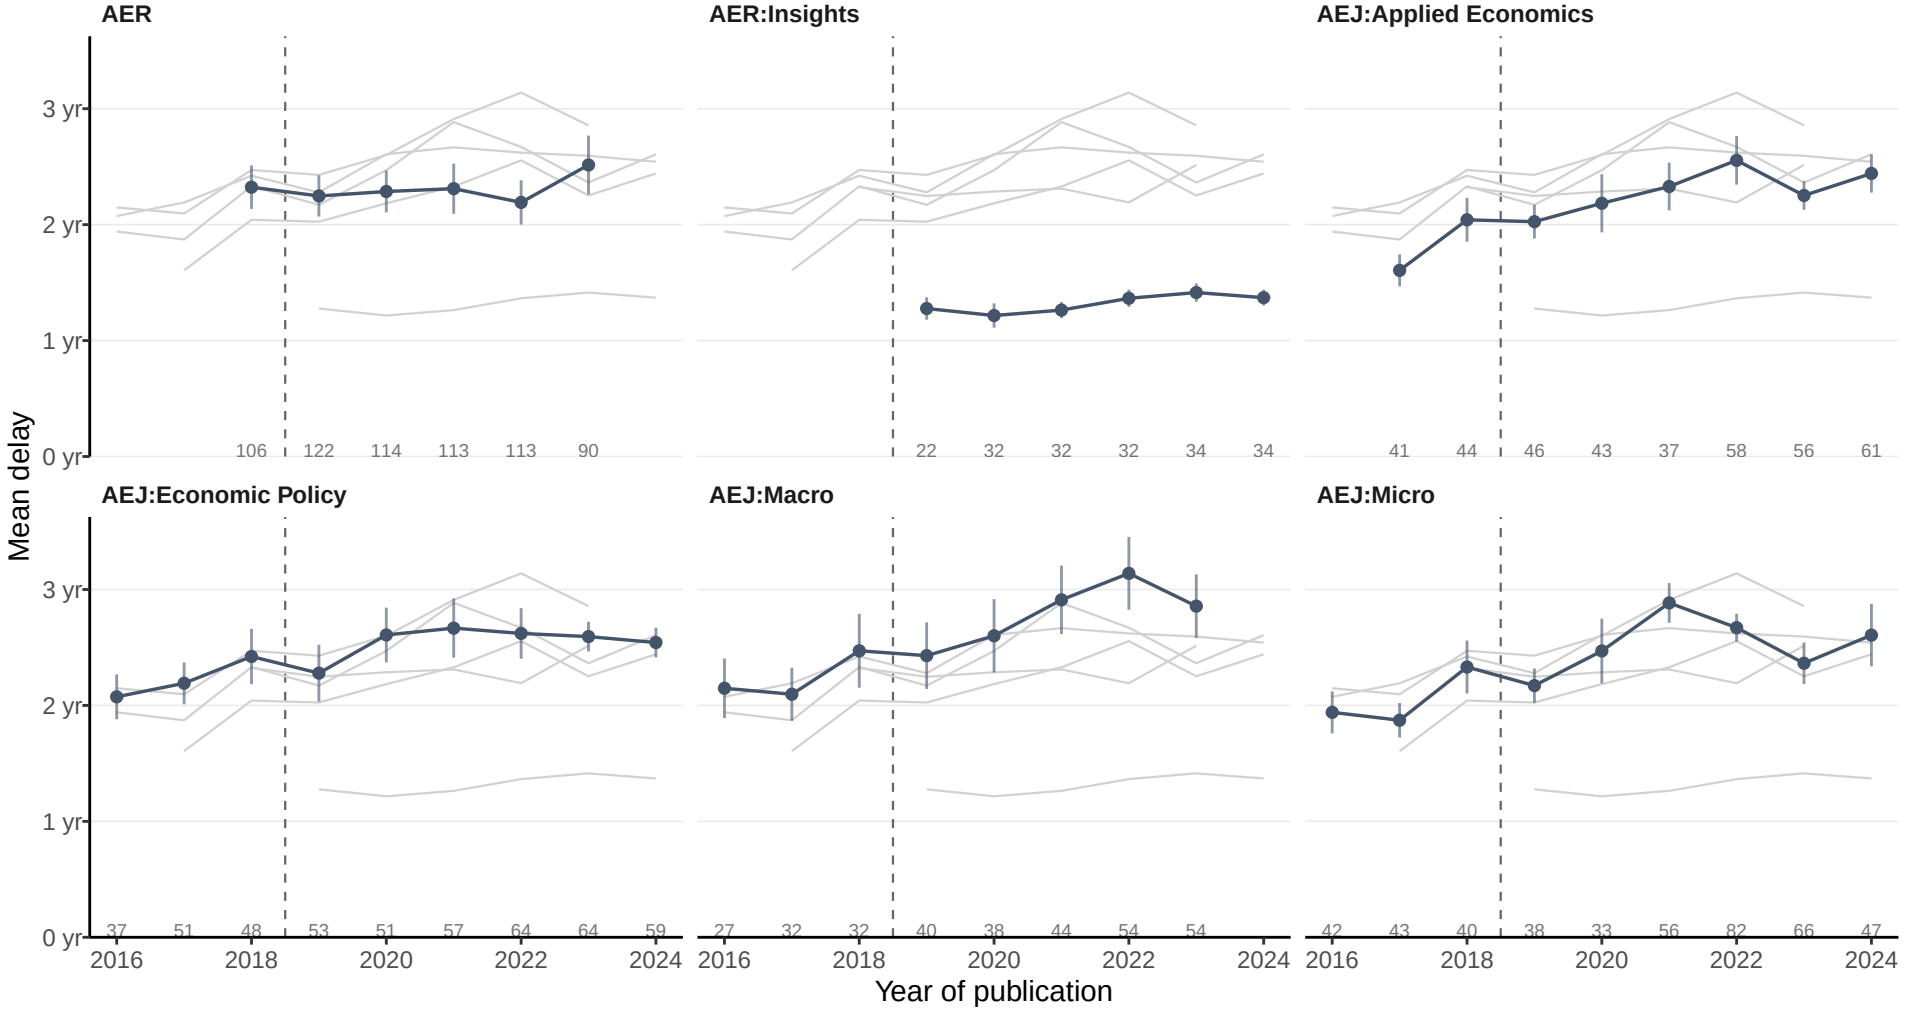
Mean delay from submission to publication, by year of publication

Mean and 95% CI; numbers: articles. Dashed line: 2019 AEA−wide policy. Grey: other journals.
Only publication years with at least 90% of articles from mapped submission years.



Submission: year and manuscript number from the DOI (e.g., 10.1257/aer.20151234). Within a submission year, the quartiles of the manuscript numbers of all published articles define the submission quarter (dated at its middle). Only submission years with at least 80% of their published articles observed with such a DOI are used, and only publication years with at least 90% of articles from those submission years. Publication: month of the print issue.
Excluded: AEA P&P, JEL, JEP (no submission−based numbering).
